From 2010-2054, half life of 2,3,7,8-TCDD is 70 yrs and of total PCBs is 62 yrs.

Yes, Tierra Phases 1 & 2 are included in all alternatives, because that is governed by an existing AOC.

Alice:

If you could share the following; we would appreciate it:

1. Recovery Rates/Half Lives - What are you getting for TCDD and PCBs in you modeling results?
2. Do you include Tierra Phase 1 and 2 areas in your Targeted Alternatives?

Thanks
